Towards harmonized simulation APIs in PaNOSC-ViNYL

Carsten Fortmann-Grote
PaNOSC WP5 lead

Jan. 20 2020

API requirements

- See TDR on github

Simulation frameworks and codes to develop/harmonize APIs for

- XFELs: SIMEX

- Neutron Facilities: McStas/McStasScript

- Synchrotrons: Shadow3, SRW

- Laser based x-rays: Partially in SIMEX

- Laser based neutrons: TBD

Assignments

- Review/edit specifications.md
- Some gh issues already assigned. Please review!
- Also see gh projects.
- Define tasks for your work area, add/edit gh issues.
- Due Feb. 3!
